## DYNASTY TOTTERS

### ST PETERSBURG FULL OF TROOPS

Strikes and Riots Hastening to a Climax

St. Petersburg, Oct. 30.—Although the city is filled with troops and reinforcements are pouring in from Finland, the Government is powerless to cope with the situation. Differences have developed between Count Witte and General Trepoff and the Emperor is shut up in Peterhof and hesitates what course to pursue. Even the Imperial Guards cannot be relied on. The 14th and 18th regiments of sailors of the guard broke barracks and demolished windows and furniture. Deputations of officers visited the law society and said the troops and officers were disgusted and would enlist in revolutionary movement. Cossacks are also refusing to use violence in the densely crowded streets. Trepoff under pressure released from prison 30 members of the strike committee which asked for reforms. Only a few telegraph wires are being worked by soldiers and the post office staff telegraph men and clemens have all struck. All cables except the Swedish have been cut and Russia at any moment may now be isolated from the world. She has no communication with her troops in the Far East except through China. The Anti-Government forces have the upper hand in Moscow and the new Militia and students rule the situation.

The situation is practically the same in Odessa and all the big cities. Many collisions have occurred and everybody has struck even including druggists. The doctors are organizing to prepare for a battle with famine and disease. The streets are like armed camps but the troops are irrevocable and the effect of the hidden master mind of the great strike is apparent everywhere. It is thought he is moving among the students who are constantly mingling in throngs of workmen. Production has ceased, food is mounting higher and higher in price, mails, trains, newspapers, telegraphs, cables and courts are paralyzed. The dynasty is tottering to its fall. In far off parts of the Empire anarchy prevails and trains are wrecked and bloody encounters continue too numerous to mention.

### EDMONTON AND THE C.P.R.

Many stories are current in town of the many obstacles placed in the way of intending visitors to the Edmonton district by the C.P.R. A particularly glaring one is told by a visitor from Stratford, Ont.

The visitor who is a young lady, applied to J. Brown, C.P.R. ticket agent at Stratford for a ticket to Edmonton and was told that he had received instructions not to issue tickets for Strathecona or Edmonton and refused to supply her with such ticket. The best he could do was to issue her a ticket to Lacombe or to Calgary at the one price. Upon arriving at Calgary, the train from the east being late of intending passengers were surprised to find that the train for the north had left two minutes previous to their arrival. They were thus compelled to wait over in Calgary twenty-four hours, coming north on Saturday's train.

The C. P. R. then collected \$7.70 fare from the young lady for transportation from Calgary to Edmonton.

## SASKATCHEWAN CRIME

### CHINAMAN KILLS YOUNG LAD

Twelve Year Old Boy Killed by Chinese Laundryman who tries to Suicide

Sinluta, Sask., Oct. 30.—A terrible affair occurred here last evening which resulted in the death of Stanley Ross a lad about twelve years of age, son of Chas. Ross, and the attempted suicide of the murderer, a Chinese laundryman. The lad had left the family residence to go to the laundry and had been gone but a few minutes when he rushed back bleeding profusely from a large hole in the back of his head made by a blunt weapon and died almost immediately, without speaking. The Chinaman was discovered shortly afterwards with his throat cut from ear to ear. He is still low but will recover. No reason can be assigned for the deed but the coroner's inquest today may throw light on the subject.

### "CORPORATION CONNECTIONS"

A Lacombe despatch to the Calgary Albertan says: Conservatives in the district of Valley City are canvassing votes for Mr. Gilmour, the Conservative candidate, on the grounds that he has promised that B. B. Bennett, the C.P.R. solicitor and leader of the Conservative party using his influence, will secure a siding for that place thirty days after the election, if Mr. Gilmour is elected. It is further stated that several hundred dollars are being distributed to spread that information among the people of the district.

### CANDIDATE WITHDRAWS

The Bulletin is requested to publish the following which was received too late to prevent publication of Mr. St. Germain's letter on Saturday, October 30, 1905.

To the Editor of the Bulletin, Edmonton, Alta.  
Dear Sir: With regard to a letter under my name that appeared in your issue of Saturday last, stating that I am running as a third candidate in Sturgeon River, I beg to state that this letter was published after I had resigned in favor of Mr. Boyle, the present Government candidate.  
Yours very truly,  
OMER ST. GERMAIN.

### CHANGED HIS MIND

A political meeting in the interests of Mr. Knight was held at Nampao on Saturday evening. The meeting was well attended. Mr. T. G. Hutchings of Poplar Lake occupying the chair. Mr. Knight opened the meeting. Hon. C. W. Cross replied on behalf of Mr. Boyle and was followed by Mr. Burnett, the meeting being closed by Mr. Knight. The meeting broke up with cheers for Mr. Boyle. The event of the evening was the announcement by Mr. Knight that he had changed his mind and no longer agreed with the promise of neutrality on the school question which he had made to the electors of Lac La Biche.

## PROGRESSIVE POLICY

Premier Rutherford Outlines the Government Policy in a Masterly Address

(Plainsdealer)

The announcement of the election date was quickly followed by the members of the Government getting into the political arena. On Tuesday evening Premier Rutherford addressed the electors of Strathcona in Ross Hall setting forth the policy which the Government proposes to follow in the administration of Provincial affairs.

The meeting was called to order by Mr. N. D. Mills, president of the Strathcona Liberal Association and there were on the platform besides the Premier Dr. McIntyre, secretary of the Liberal Association, Messrs J. G. Tipton, R. Ritchie and J. J. McKenzie.

Premier Rutherford began his address by stating that he was glad of the opportunity to open the campaign on behalf of the Government in his home town and to announce here the policy that they had agreed upon.

On Sep. 2nd, he had been called upon by His Hon. Lieutenant-Governor Balfour to form a government.

On Sept. 6th, he had announced the members of his cabinet. There are five including himself, three from the South and two from the North. He had selected the Hon. Mr. Cushing of Calgary for the portfolio of Public Works; Hon. Mr. Cross, of Edmonton, to be Attorney General; Hon. Mr. Finlay, of Medicine Hat, for Minister of Agriculture and Provincial Secretary, Hon. Dr. Debever, of Lethbridge, as minister without portfolio. He himself had taken the Department of Education and the Provincial Treasury.

He thanked the people of Strathcona, both Liberals and Conservatives for the many expressions of good will of which he had been the recipient. Mr. Rutherford next referred to the fact that Mr. Bennett, who had recently addressed an audience here was simply the temporary leader of the Conservative party in Alberta, the motion for permanent leadership having been turned down by the Red Deer convention. There had been several aspirants for the office, among them Dr. Brett, of Barrill, and Messrs. J. J. Young and W. L. Walsh of Calgary as well as Mr. Bennett. He quoted the Calgary Herald's famous reference to Mr. Bennett's "corporation connections" which should make his leadership "undesirable" if not "impossible."

Mr. Bennett in his speech in Strathcona had endeavored to lead the electors to believe that he stood for high principles yet in a speech at Calgary he had promised to retire from the political field if the Honorable Mr. Cushing would have the capital removed to Calgary. He did not think Mr. Bennett exhibited very high principle in that pledge especially after his impassioned utterances in London and North Oxford.

**C. P. R. EXEMPTION**  
The Premier said that his Government would stand for the wiping out of the C. P. R. tax exemption, not only upon the odd sections but upon their right-of-way, buildings and other holdings. An injustice had been done in 1881 when the contract with the company was ratified by the Conservative Government of that day. The exemption then allowed should be lifted and compensation made by the Dominion in such a way "that the people of the Western Provinces would not have to bear more than their equitable share." The C. P. R. has earned 18,000,000 acres of its land and has sold about 7,000,000 of them so they still hold about 11,000,000 acres or 70,000 quarter sections. It is assumed that the taxable value of every three miles of the C. P. R. is \$100,000 so the valuation on their road bed and equipment which should be subject to taxation is \$20,000,000. We have no quarrel with the C. P. R. but believe this exemption an injustice which should be corrected by the Dominion Government as soon as possible. Our Conservative friends are only pledged in their Red Deer convention platform to the removal of the land grant exemption.

**PROVINCIAL FINANCES**  
Mr. Bennett had contended that the assets of Alberta under the new treasury act were of no account simply "faith, hope and charity." He had told how his head drooped as he entered the two new Provinces because they possessed an inferior people, robbed of their birthright and nationally impoverished. He proceeded to show wherein the people of Alberta were so devoid of assets as Mr. Bennett would have us believe. In ten of lands we will receive the first year of Provincehood \$375,000 this to increase annually according to our population until it becomes an annuity of \$1,250,000. Besides this for the next five years we will receive \$31,750 per for the erection of capital buildings. The per capita tax on our present estimated population amounts to

\$200,000 per year and on capital account: \$450,375. These amounts total up to \$1,074,125 for the first year. The Premier said he had already received a cheque for half that amount from the Dominion Government and another was forth coming on Jan. 1st next. In addition to all this the Dominion Government carries on the immigration department at a cost of nearly \$1,000,000 annually the benefit of which is very largely received by the new Provinces, they also give to our new settlers their free homestead lands and maintain the R. N. W. M. P. at a cost of \$500,000 per annum. Surely Alberta is not without substantial assets under the autonomy act. Under the late Sir John Macdonald Manitoba was granted autonomy under terms vastly inferior to Alberta and Saskatchewan. Premier Roblin in Manitoba in a speech recently at Balfour compared the terms complained of by the new Provinces were "too generously treated." We have also two sections of land in each township or 5,000 acres in the Province to form an endowment fund for education. A business man would consider these items of cash revenue as assets. He had recently received a letter from an eastern financier asking when the Provincial bonds were to be issued and he had the pleasure of replying that the Province of Alberta required no bonds as she had revenues sufficient for the administration of government.

**MORE MONEY THAN HAULTAIN ASKED FOR**  
Premier Haultain of the old Government had favored the one province idea and figured that the annual grant should be \$1,200,000. Under the terms granted by the Dominion the amount is over \$2,000,000 for the two provinces. Mr. Haultain has admitted the generosity of the financial terms while holding out for retention of the public lands. What revenue had the Dominion Government realized out of the public domain in the last thirty years? In that time the administration had cost \$1,000,000 more than the revenue. A provincial administration might do no better.

**CONSERVATIVE OPINIONS**  
Mr. Rutherford further quoted the Hon. Geo. E. Foster and Mr. Uriah Wilson two prominent Conservative members of Parliament who denounced the Laurier Government for its liberality toward the new Provinces giving them so much better terms than the other provinces had been given and continuing to pay for administration of such departments as lands, immigration and N. W. M. P. while granting such large subsidy.

**OUR BETTERED CONDITIONS**  
The old provinces got most of their revenue from timber but we in

## THE LAND QUESTION

Speaking in the House of Commons Hon. Mr. Oliver said (see page 3157-58 Ottawa Debates, 1905). "As to the ownership of these lands, it has been urged that these lands are the property of the Province and should be administered by the Province for the benefit of the revenue of the Province. It matters not to me what the legal rights of the Province or the Dominion respectively are in that case. The lands belong to Canada, whether administered by the Province or by the Dominion; the settlement of these lands is for the benefit of all Canada. Whatever method of administration will give us the best results in the way of settlement of these lands is the policy that is best, not only for the Dominion, but for the Province. As a representative of the West I believe the idea of using the lands of the West as a source of provincial revenue would be a very great detriment to these new Provinces and to the country at large. I am aware that the Provinces must have revenue, and failing any other source, I would say: Certainly we must have revenue from our lands. But if we can get adequate revenue from other sources than the lands, then we certainly do not want the lands used as a source of revenue. I can easily understand that with a change of policy on the part of the Federal Government, a change of policy back to what it was twenty years ago, when it was believed to be the proper policy to take everything that could be taken out of the land in the way of cash payment; then possibly it would be better that the lands should be in the hands of the Province rather than in the hands of the Dominion. But so long as we have a land policy, the basic idea of which is the land for the settler, it is certainly better for us and for the Dominion that the lands should be administered by the Federal authorities. One Hon. gentleman said that the lands could be better administered by the Province than by the Dominion because the people of the Province are closer to the ground and the interests of the Province, he said, were just the same as the interests of the Dominion. I beg to differ: their interests are not the same. The interest of a Province in the land is in the revenue it can derive from the sale of the lands; the interests of the Dominion in the lands is in the revenue it can derive from the settler who makes that land productive. This Dominion of Canada can make millions out of the lands of the North-West and never sell an acre; it has made millions out of these lands without selling an acre. The increase in our customs returns, the increase in our trade and commerce, the increase in our manufactures is to a very large extent due to the increase in settlement on the free lands of the North-West Territories. The prosperity this Dominion is enjoying today is to a very large extent due to the fact that the lands of the North-West Territories have been given away, and that people have taken them. I say that the interests of the Dominion is to secure the settlement of the lands, and whether with a price or without a price makes little or no difference. It is worth the while of the Dominion to spend hundreds of thousands of dollars in promoting immigration to that country, and to spend thousands and thousands of dollars in surveying and administering these lands and then give them away. But the Province is not in that position. The Province derives no revenue from the customs duties or from the wealth the settler creates. Every settler who goes on land in the North-West Territories is a bill of expense to the Provincial Government. That settler requires a road made, he requires a school supported, he requires the advantages of municipal organization, and these have to be provided for him out of the funds of the Provincial Government, so that as a matter of fact the tendency of the Provincial Government is to get such money as it can out of the land, and to provide settlement from spreading further than it can be helped. On the other hand the interest of the Dominion is to get the settlers on the land, to scatter them far and wide so long as they are good settlers and they get good land. That is the position as it strikes us in the North-West, and when we have secured a financial arrangement with the Dominion Government that gives us an adequate revenue as compared with the other provinces at any rate gives us a revenue that is proportionate not only to our population as it will be but to the area over which that population will spread—when we have secured an arrangement such as that, we have secured a very satisfactory arrangement; at least as satisfactory as we can expect to secure."

## When millions of experienced housekeepers have been using Sunlight Soap

for years, for their every requirement, why should not you use it? Try it next wash day, and if you do not find it better than any other soap you have ever used, your grocer will refund your money. Sunlight Soap washes equally well with hard or soft water. No scrubbing, no boiling.

### Progressive Policy Continued From Page Three.

the prairie provinces have very little hence our terms are infinitely better than owning the land. Here the Premier compared the present financial condition of Alberta with the Territorial estimate for this year. The total estimate of the Territories for the current year was \$1,117,000 while for Alberta alone it is \$1,375,000.

For Education N.W.T. \$21,000.  
For Justice Alta. \$2,000.  
For Justice N.W.T. \$25,000.  
For Agriculture N.W.T. \$17,500.  
For Agriculture Alta. \$33,000.  
For Hospitals N.W.T. \$25,000.  
For Hospitals Alta. \$10,000.  
For Public Works N.W.T. \$98,000.  
For Public Works Alta. \$800,000.  
For Education N.W.T. \$25,000.  
For Education Alta. \$172,500.

The St. John Star on Sept. 2nd pointed out that Alberta begins business with \$1,520,000 revenue, 50 per cent more than the total revenue of New Brunswick from all sources.

Alberta has no debt.  
Ontario owes \$3,000,000.  
Quebec owes \$1,000,000.  
Nova Scotia owes \$5,400,000.  
New Brunswick \$3,000,000.  
British Columbia owes \$2,782,412.

### AMPLE REVENUE

The old Conservative Government at Ottawa had charged up to the N.W.T. the cost of the Rebellion of 1885 and the Hudson's Bay settlement. But these charges were wiped out on Sept. 1st. We have ample revenue and no doubt, surely cash in hand and guaranteed by the Dominion Government, is a better asset than the mountain-tops that Mr. Bennett said we did not have.

### THE SCHOOL QUESTION

Mr. Rutherford next turned to the school question. He said the Strathcona Chronicle had wondered why he had made no statement of his policy in this matter. He said his policy had been before the country ever since the Calgary Liberal convention. He would give the Chronicle a copy and advise the editor to publish it in every issue until the election.

The Premier stated that his Government was not responsible for the Alberta Act but the Dominion Parliament was passed it with a majority of 81.

### LAW MAY BE REPEALED OR AMENDED.

It is up to those who supported the act to justify themselves. Under the terms of that act the laws which existed in the North-West Territories on August 31 last are continued in force thereafter in the provinces of Alberta until repealed or amended by the Legislative Assembly of the province. The present school law in this province is the school ordinance of 1891 adopted by the Haultain government. It has proved very satisfactory in the past. Here he quoted from the school law many clauses showing its provision regarding minority privileges and religious instruction. It was the purpose of his government to administer the school law as they found it in the interest of efficient education. It was not necessary for them to interfere with the law in any way while it proved so satisfactory as it had been in the past. He compared the conditions in several other provinces as to separation in schools with the conditions in Alberta showing the great superiority of our system over those of the others. In what respect he asked, are we inferior in the matter of our schools. Mr. Rutherford quoted extensively from the Calgary Herald, the chief Conservative organ of the province, of March 2nd last immediately after the first reading of the Alberta bill in Parliament when they expressed themselves as in hearty sympathy with the educational provisions of the bill and condemned the eastern press in strong language for their tirades against them.

### AGRICULTURE

The speaker read from the Calgary Liberal convention platform the clause relative to agriculture and stated that it was the intention of the government to expend the funds at their command for public work on leading roads and would endeavor to give efficient instruction in road building to the farming communities.

### PUBLIC BUILDINGS

As to the location of public buildings Mr. Rutherford said it was their intention to distribute about the province buildings that did not require to be at the capital. They would ask the Dominion for a special grant for university and agricultural college endowment.

The Premier said that he had always endeavored to serve the constituency of Strathcona faithfully in the past and hoped to be favored with the confidence of the electors again on this occasion. Referring to the removal of the ditcher from the dredge work it had been doing during the last two years south of town exception to which had been taken by the Chronicle, he said that the work could be completed more satisfactorily with scrapers, and there were no other applications for the ditcher in this district and no place in this vicinity where its services were required.

At the close of Premier Rutherford's speech Dr. McIntyre was called upon and spoke briefly and effectively on the issues of the day. He compared the policies of the two parties as set out at their provincial conventions. Referring to the school question the doctor said some time ago, in private discussion, three questions had been put to Mr. Haultain. First he was asked how he would treat the school issue. He replied that he would make a test case. Second he was asked if he wanted to change the school law and he said no. Then he was asked why he did not make a test case since he did not want the law changed.

As far as this campaign goes we have the people of discussion on one side and effective administration on the other side.

The meeting closed with three cheers and a hurrah for Premier Rutherford.

## SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years has abundantly proved the correctness of their judgment, and they are reaping the reward of their faith in the city.

The growth of the city during the past two or three years has been great, but, compared with the growth of the next two or three years it will be but as the dawn of day, compared with the splendor of the noon-day sun.

You have the opportunity now to do as some few did in the past.

## The Groat Estate

is now on the market at prices which will look small—very small, indeed—in the very near future. The city is growing westward rapidly and ere long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms—one-third cash, and the balance in six and twelve months, without interest. There will be no taxes to pay for over a year.

## History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

—W. M. Parsons, of Minneapolis, western representative of the Y. M. C. A., arrived in town on Saturday. He addressed a large audience of young men in the Methodist church at 4 p.m. on Sunday, on the need of purity in the life of all, particularly young men. In the evening he conducted services in the Presbyterian church. Tonight there will be a meeting of all interested in Y. M. C. A. work in the Assembly room of Alberta College. The object of the meeting is to arrange for rooms for the winter and decide about the proposed new building.

—A run-away between twelve and one o'clock today caused considerable excitement. A team driven by Adam Gabelhouse, left in front of Rev. Dillon's, became frightened and dashed down Jasper avenue. At the corner of McDougall street they turned north and ran into a three horse team, also going north. The wagon was turned completely over and the driver thrown out. He managed, however, to cling to the lines until he saw it was impossible to stop the horses. The team tore up McDougall and down Rice street opposite the market, and fell at the corner of Queen's avenue, jammed between the front wheels, the wagon tongue and the sidewalk. They were released practically unhurt and with out doing any serious damage to the wagon.
